

First Steps

First decide on your budget and what is the most important factor of the research you wish to have done.

How much you have done depends on your budget. Charges were last revised in July 2016 but expenses vary as external charges vary.

Firstly you need to contact me, preferably by email and outline what you need doing, be it a full family history or a brickwall problem. I will reply and ask a few questions appropriate to your research. I start by looking at what you have already done towards your goals with a free appraisal - usually I would not expect that to take me longer than an hour. This should enable me to see if I am the best person to assist you. If not I will recommend another researcher more suited to your task.

Once we have come to an agreement regarding what research needs doing a brief contract is returned to me with an initial deposit of £50. I will email a copy of this with my reply - all data is kept confidential - I am registered with the ICO (Information Commissioner's Office) under the Data Protection Act and comply with the terms of GDPR.
