

Payment:

Payment should be made by direct bank transfer (details on request). If you would like to pay by PayPal please request a Paypal Invoice if you this is your easiest method of payment - it does enable payment by credit card without a Paypal Account. I am unable to take payment by credit card directly. Preferred method of payment should be declared at the beginning of the process on the contract form but isn't binding. Please ensure that you have the means to pay before committing to having work done and that you understand the amount in £ sterling/international currency.
